

Welcome to the World of Gerlach

A broad network of experts

Customs. Simply cleared.

Agenda

Short bullets

- New world of restrictions
 - CBAM etc
- Customs reform
- or can there be other Initiatives
- Q&A

Is this our Future – Sanctions, restrictions etc?

A tsunami
of new ESG regulations
for multiple geographies

Let us not replace **red** tape with **green** tape

CBAM – only ONE example

- Implementing period until the end of 2025

CEMENT

IRON & STEEL

ALUMINIUM

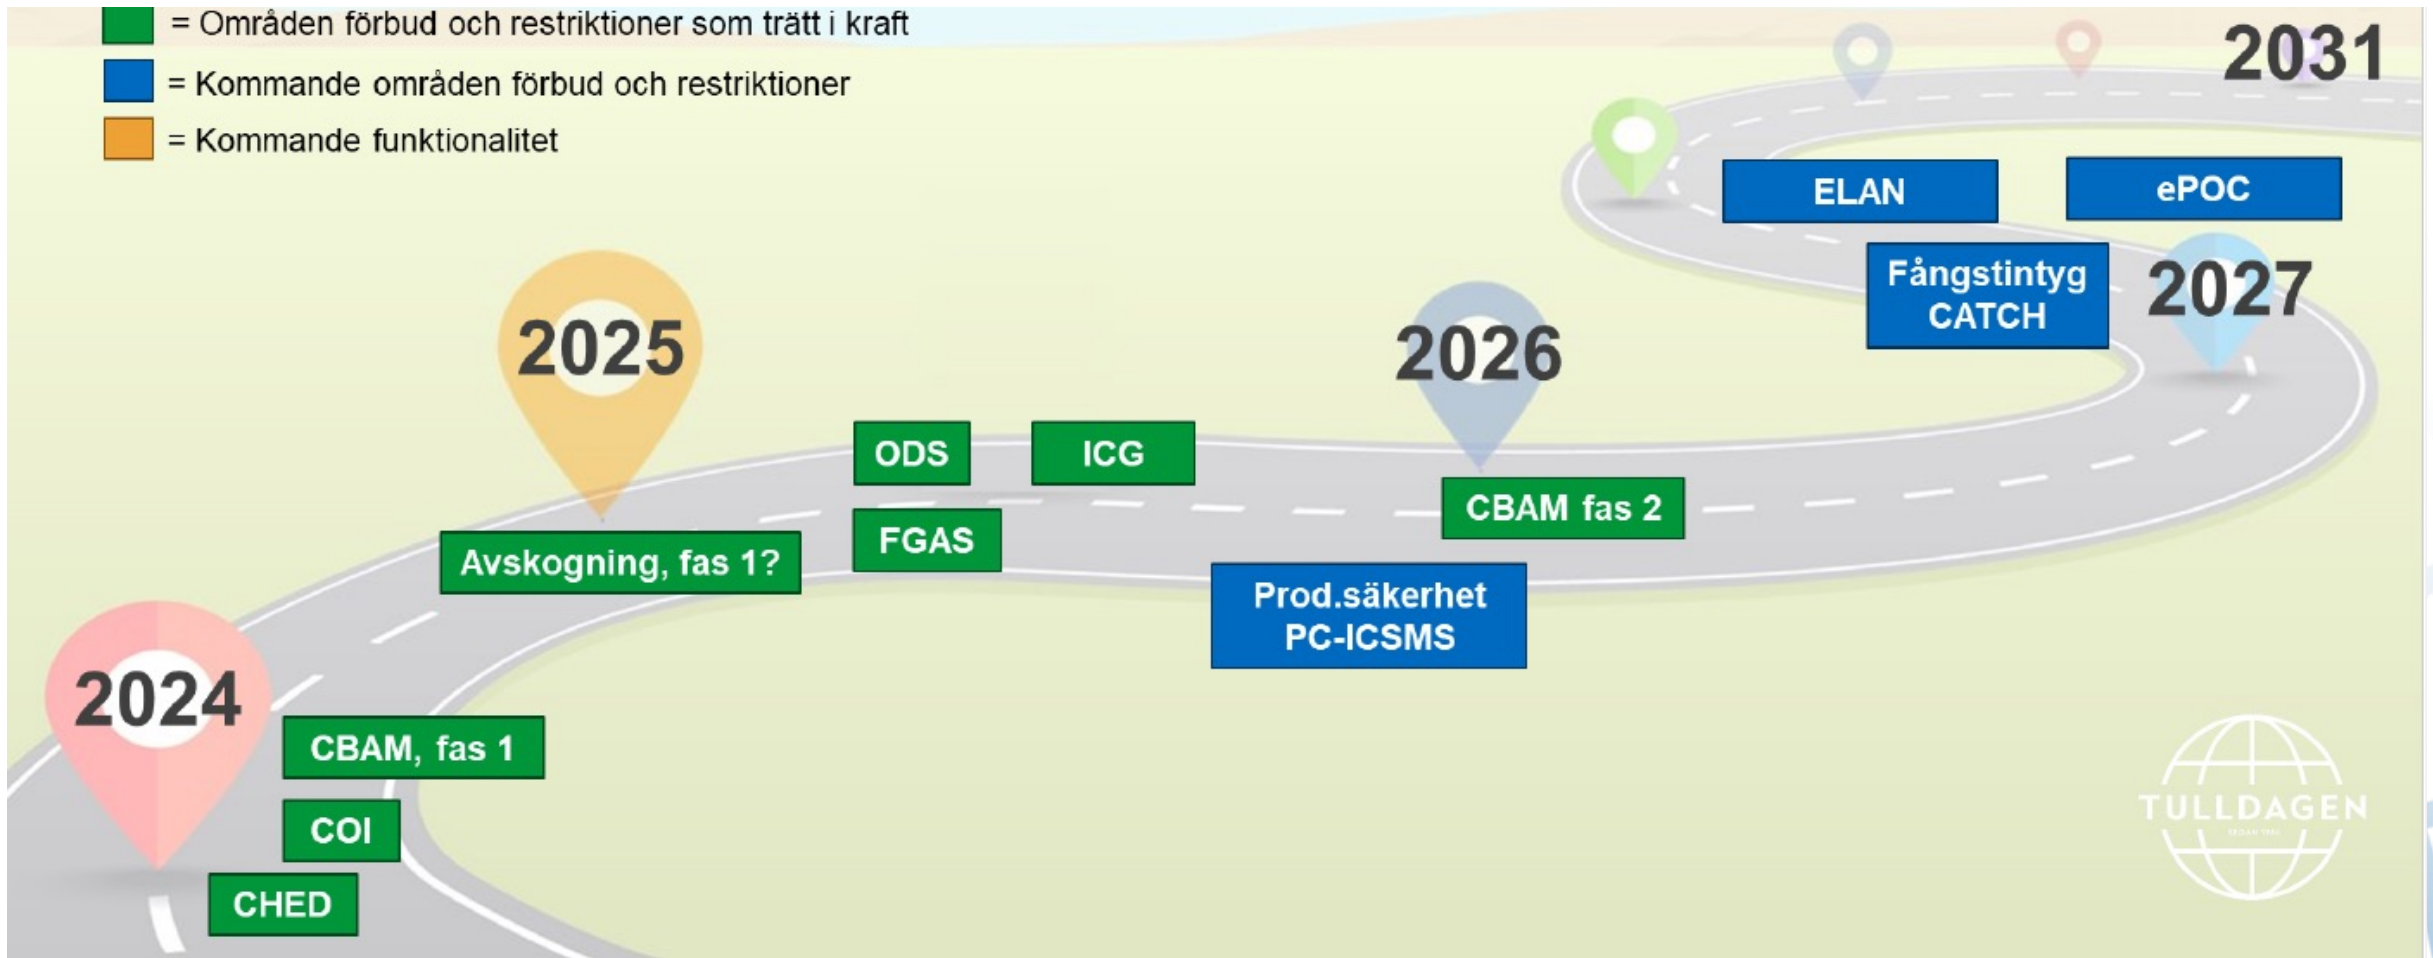

FERTILISERS

ELECTRICITY

HYDROGEN

And more to come (sorry for the Swedish text)

Centralized Clearance Import

Customs reform (COM 2023/257)

- **New regulation (UCC 2.0)** implementation planned from 2028
- **HEADERS**
- Trust and checked traders
- No transactionbased Customs Declarations
- EU Customs Data Hub
 - Will handle and check information submitted from different parts in the logistic chain AND Authorities
 - Will validate on beforehand and extract objects for deeper control
- EU Customs Authority
 - Will own this EUDH and N/A IT-systems will no longer be needed, at least not for Customs matters
 - Will also harmonize and set up common levels for customs officers (training program etc)

....if we could have a passport for goods.....

GLOBAL TRADE 2.0

The Global 2.0 network is driven by prosperity zone nodes connected by digital trade corridors providing international trade with trusted trade superhighways

Finally — steps taken

Initiatives

- General duty-free regarding all imports for construction, operation and maintenance of the research facility
- General duty-free importation of samples for experiments
- Simplified procedure, loan of equipment as a replacement for Temporary Entry and ATA-Carnet
 - Both options are limited in time and do not allow any modification of the equipment, which is the whole purpose of the exchange
- These changes would strengthen the European Union's strongly stated ambition to become a world leader in research.

- **DG Research and Innovation**
 - Marc Lemaître – Director General
 - Anna Panagopolo – Head of Unit
 - Dejan Dvorsek – Deputy Head of Unit
 - Michael Arentoft – Strategy for ICT R&D
 - Martyn Chamberlain – Research Infrastructure
- **PolicyDG Taxud**
 - Gerassimos Thomas – Director General
 - Fernando Perreau de Pinninck - Taxud A.3
 - Germán de Melo Ponce – Taxud A2
 - Kaie Van Muylem Taxud B5
 - Marie Teresa Sutich – Taxud C1
 - Kelly Cardenas – Taxud B5Maite Galan – Taxud B5
 - Dimitriois Tsagkalakis – Taxud A2
- **World Customs Organization**
 - Anar Suleymanov – Technical Attaché: Procedures/Facilitation

Swedish Customs

Invitation sent to DG and HO management for visiting the plant in Lund for a dialogue

The Swedish Research Council

Margaretha Andersson – Coordinator within the Infrastructure Support Unit
David Palmqvist – Lawyer

“Customs has never been more important than now, but it will be more important tomorrow”

Thank's for your attention
